TRANSMITTAL OF THE TRAINING REQUIREMENTS FOR THE TRENCH 1 SOURCE REMOVAL PROJECT - TCG-009-98

The purpose of this correspondence is to communicate the managerial/oversight personnel training requirements for the Trench 1 Source Removal Project (draft transmittal letter to EPA and CDPHE is attached). As shown in Attachment 1, there are different training requirements for access to the Contamination and High Contamination Areas, Radiological Buffer Areas, and the Support Zone. For project specific courses offered by RMRS, please contact Brandon DiSalle at 966-3735 so that your name(s) can be added to the list of attendees. You will be notified when project-specific courses are scheduled. Radiation Worker II can be scheduled by calling 966-2743. It is offered at Building 060.

The General Employee Radiation Training (GERT), Hearing Conservation, and Respirator Indoctrination courses are computer-based training (CBT) and are located at T130E. They can be scheduled by calling 966-6473. Instructions for the respirator fit chamber certification will be provided following the Respirator Indoctrination course. The two Respirator Protection Training courses will be scheduled together.
